Subject: Ramirez, Francisco

•

In the matter regarding Francisco Ramirez: I have learned that Mr. Ramirez has ran several political campaigns, (about five) since year 2010, losing the first four seats, then winning on Hanford city council in 2014, during his 2014 campaign he did not complete the required state political forms, this information was sent to the King County Grand Jury.

The grand jury did in fact find during their investigation that Mr. Ramirez collected more than \$3000.00 without any reporting, I know of a donation check given to Mr. Ramirez and cashed at a local retail store. This very troubling, seems like Mr. Ramirez used moneys collected for personal use. Even more troubling that the grand jury report reflected this misuse of collected moneys, when forward to our local district attorney, our D.A. chose not to act of this crime, citing this was all political.

It appears to me that Mr Ramirez has ran for political office for the purpose of gaining political donations for personal use. I have known Mr. Ramirez since about 2012, during this time to my knowledge, he has not held gainful employment for his family.

During July and August 2017, I walked his district gathering signatures for his recall, during that time, I was harassed by people following me, Mr. Rmairez lied about me on social media that I was spreading lies, it was said, that if I would knock of certain doors, that the dogs would be let out to bite me. At times I felt uncomfortable and threatened. I was only doing my civic duty.

In November 2017, Mr. Ramirez lost his seat to a successful recall, he has now pulled papers for the Hanford city council.
