I write to you today and want to sincerely apologize for my lack attention to a very serious matter, I never intended to run, hide, shy away from, or shun, what I am obligated to do or have done in the past regarding my duties as a Marin City Community Services District Board Member. This serves as a true apology to FPPC & the MCCSD, as I ask the FPPC for a final chance to complete the task that was asked of me.

Serving 4.5 years on the MCCSD board was indeed the most rewarding educational experience in my 51 years of life. Nothing I learned in school can compare. I want to touch on just a little my very tough road and journey, which included living in a historical district. Golden Gate Village Public Housing in Marin City and enduring mold & mildew, and being the board chair and also enduring very tough, rigorous, hostile, meetings. Very stressful meetings! Living conditions and being under stress lead me to resign in summer 2022 because I was overcome with an EXTREME case of eczema/atopic dermatitis.....And 4 dozen, doctor, emergency room visits. This does not serve as an excuse whatsoever, but I am in pain as I type this letter. I can go on and on, but that is not why I type this today.

I, Damian Morgan, humbly asks the PPPC for one last chance to complete the task at hand, and I will be forever grateful.

Thank You,

Damian Morgan
