EXTERNAL EMAIL

Hello,

I would like to take this opportunity to express my concerns regarding the FPPC mandate requiring the filing of Statement of Economic Interests (SEI) directly with the FPPC using their e-filing system. While I understand the importance of compliance and oversight, I am not in support of this approach, especially in the context of cities that already have an approved electronic filing system in place.

Currently, we do not have our own electronic filing system, and the goal of obtaining one has now become uncertain due to this mandate. I believe it would be beneficial for each city to have the option to utilize our own electronic filing systems, which allows for greater flexibility and streamlines the process for our local officials.

I respectfully request that this mandate be reconsidered, so that cities with their own electronic filing system can continue to meet their filing requirements effectively.

Regards,

MARCIA BROWN, CMC
City Clerk
